Accessing the new PROTEOME and TRANSFAC databases

The interfaces for the PROTEOME and TRANSFAC databases have been updated and merged into a single application.

The first time you log in to access the new PROTEOME (but not TRANSFAC) interface, you will have to reset your existing user password. This only needs to be done ONCE.

STEP 1: Follow the new customer login
STEP 2: Reconfirm your new password
RESULT: You’re done!

Databases available to Stanford affiliates
